

Our vision is to  
**nurture the seed of generosity**  
in Every Human Heart.

The journey always begins with us. When we nurture our capacity to express our natural, boundless generosity, it is deeply felt by those whose lives we touch.

**This is how we change the world.**

## Come join us!

Each day, our 150 volunteers, staff and Board of Directors work to strengthen our Mission – to find people who are passionate and excited about improving their community and help them make that happen.

Volunteers in our 26 chapters give grants to help children & youth; families & elders; women & girls; men & boys. We support education projects that help the underserved meet basic needs. We stand alongside those who are working for a more equitable and just world. And we support people with ideas designed to bring about necessary changes in the environment.

**This is true  
grassroots  
philanthropy.**

**Join us! Start a chapter  
in your community.  
Make a donation.  
Be the change  
you want to see  
in the world.**

Most importantly, we keep our eyes open for those people in a community who rise up from within the community itself and tell us their dream or vision for a program that will strengthen the place they call home. We like saying yes with a micro-grant funded by the people whose town or city will be made stronger, more vital, and more beautiful as a result of the efforts of those who live there—many of them volunteers.
